TR-E MICRO DIGITAL BORING HEADS & KITS

PRICING VALID THROUGH 2022

NEW D'Andrea Precision Digital Finish Boring Heads with .0001" (.002mm) Ø Setting Accuracy

The new D'Andrea Digital TR-E boring heads now display the radial slide traverse distance on it's built in digital display. This allows the operator to quickly, precisely and accurately make the necessary adjustments. While traditional heads feature a dial adjusting mechanism, the TR-E series of heads feature a direct drive measuring system that shows exactly how much the head has been adjusted. This also helps eliminate any necessary fine adjustment backlash issues. The digital display shows you exactly what you need to know in tool adjustments.

Features of TR-E Precision Digital Finishing Heads

- Display resolution of .0001" (.002mm)
- Precision Boring Capacity of:
  TR-E50 – .098" to 4.25"
  TR-E63 – .236" to 4.92"
  TR-E80 – .236" to 7.87"
- Head capable of Inch or Metric adjustments / display
- No backlash compensation required
- One button operation for ON, RESET or to change between Inch & Metric
- Display switches to sleep mode after 30 seconds and stores last display reading
- Internal Coolant Through
- Water resistance to industry standard IP69K
