

# TA Heavy Duty Angle Heads

Made in Italy

Sistemi di lavoratura  
Sistemi di lavoratura  
Sistemi di lavoratura

L'azienda O.M.G. Srl è lieta di presentare in questa unica soluzione grafica tutti i suoi prodotti, interamente progettati e costruiti al suo interno.

Chi ci conosce da un po' di tempo avrà potuto notare l'evoluzione tecnica e strutturale di cui l'azienda è protagonista.

La nostra ampia gamma di prodotti si è ampliata e migliorata:

- **serie TA**, teste ad angolo
- **serie MO**, moltiplicatori di giri
- **serie HT**, torrette a revolver
- **serie VH**, teste multiple ad interassi variabili
- **serie TSI-TSX**, teste multiple per sputatura ingranaggi
- **serie T**, teste multiple a giunti universali
- **serie MT, TC, TC3, TFS** esecuzioni speciali studiate e personalizzate per le più svariate applicazioni.
- **serie BAH**, teste ad angolo per grosse asportazioni studiate per l'industria militare, navale, aerospaziale ecc.
- **serie TA\_Cp**, teste ad angolo "Light Duty" studiate per contenere peso e costi.
- **serie FH**, teste a sfacciare studiate e realizzate per essere applicate su macchine utensili a CN.

È una dichiarazione d'intenti, l'esplicitazione della nostra mission: creatività e consulenza tecnica al servizio del cliente per aiutarlo a migliorare la propria produttività, affidabilità del servizio pre e post vendita con la garanzia di un'assistenza tempestiva e una sempre maggiore puntualità nelle consegne.

Ringraziamo con l'occasione tutti i clienti che hanno scelto i prodotti O.M.G., contribuendo così all'evoluzione degli stessi; un gradito benvenuto a tutti quelli che si rivolgeranno con fiducia a O.M.G., certi di avere un'azienda attenta alle singole esigenze e partecipe nelle più diverse attività produttive.

#### **Un po' di storia.**

L'azienda O.M.G. nasce negli anni '60 come laboratorio di piccole dimensioni specializzato nella progettazione e fabbricazione di teste multiple. La produzione era indirizzata, allora, verso tre prodotti: mandrini a maschiare, teste multiple a giunti universali e teste multiple ad assi variabili.

In seguito, sintonizzandosi con la grande evoluzione dell'industria metalmeccanica, anche l'azienda O.M.G. cresce e si sviluppa, partecipando alla diffusione di nuovi prodotti con le proposte più innovative e d'avanguardia in questo settore di ricerca e produzione.

Le tecnologie d'avanguardia nei processi produttivi e l'impiego di nuove tecniche computerizzate firmano la notorietà e l'immagine del marchio O.M.G.; un nome diffuso e conosciuto da tutte le aziende, piccole e grandi, un'immagine mai smentita ma sottolineata nelle numerose campagne pubblicitarie realizzate.

***Ringraziamo per l'attenzione,  
O.M.G. Srl***

O.M.G. Srl is pleased to present, in a single graphic solution, its entire range of products, all designed and built inside its production facility.

Those of you who have known us for some time will be well aware of the technical and organizational evolution that distinguishes our company.

Our range of products has been extended and upgraded:

- **series TA**, angle heads
- **series MO**, spindle speeders
- **series HT** revolver turret heads
- **series VH**, variable centre distance multisindle heads
- **series TSI-TSX**, gear chamfering multisindle heads
- **series T**, universal joint multisindle heads
- **series MT, TC, TC3**, TFS special executions studied and customized to satisfy the most different applications.
- **series BAH**, angle heads suitable for heavy machining studied for military industry, naval industry, aerospace industry, etc.
- **series TA\_Cp**, "Light Duty" angle heads studied to limit weight and costs.
- **series FH**, facing heads, a new choice for the market, studied and realized to be applied on CNC machine tools.

Our mission involves a declaration of intent: creativity and technical advice at the service of customers to enable them to upgrade their output and their before and after-sales service reliability through prompt assistance and increasingly more punctual delivery.

Allow us to take this opportunity to thank all those customers who have chosen O.M.G. products, thereby contributing to their evolution; a warm welcome too to those who turn with confidence to O.M.G. , a company that caters for individual requirements and is involved in a range of different manufacturing activities.

#### **O.M.G. history**

O.M.G. was established in the 1960s as a small workshop specialised in designing and manufacturing multisindle heads. At that time, production centred on three products: tapping spindles, adjustable joint multisindle heads and variable centre distance multisindle heads.

Later on, in line with the evolution of the mechanical engineering industry, O.M.G. expanded and developed, taking part in the diffusion of new products with innovative and cutting-edge proposals for this research and production sector.

The cutting-edge technologies employed in the manufacturing processes and the use of new computerised methods resulted in the O.M.G. brand name and image becoming widely known to small and large companies alike, an image sustained by a long series of advertising campaigns.

***Thank you for your attention,  
O.M.G. Srl***

serie

teste ad angolo  
angle heads

Un prodotto fondamentale che grazie alla riduzione dei piazzamenti in lavorazione, vanta un contributo prezioso per l'aumento della produttività necessaria per competere su tutti i mercati: parliamo della Testa ad Angolo, da considerare come parte integrante del parco utensili della macchina.

- **Esperienza** - E' dall'inizio degli anni '60 che O.M.G. crea prodotti. L'esperienza non si acquista, si acquisisce. La realizzazione fin dai primi anni di prodotti speciali ha formato le competenze per lo sviluppo di una gamma di Teste ad Angolo articolata e performante, idonea alla clientela più esigente che crede negli investimenti per conquistare nuovi mercati.
- **Tradizione** - Il termine "qualità" viene spesso citato, ma non significa soltanto utilizzare macchine utensili tecnologicamente avanzate per ottenere lavorazioni precise. La qualità è il risultato di esperienze pratiche, di calcoli matematici, di sfide vinte e perse ma comunque accettate, di cui fare grande tesoro.
- **Innovazione** - Le Teste ad Angolo Speciali di ultima generazione offrono prestazioni superiori a tutti gli standard e condizionano spesso la produzione fino al punto da divenire indispensabili nel completamento del processo produttivo. Da queste OMG continua a trarne grande beneficio e soddisfazione con soluzioni tecniche poi riproposte sulle Teste ad Angolo Standard a catalogo.
- **Modularità** – Indispensabile oggi la flessibilità produttiva, ancora maggiore negli investimenti. In questa ottica gli elementi modulari delle Teste ad Angolo consentono di ridurre i costi ed aumentare i benefici.
- **Personalizzazione** – Se l'ampia gamma di Teste ad Angolo standard non risponde all'esigenza specifica, siamo pronti a progettare e costruire il prodotto speciale, forti dell'esperienza di centinaia di soluzioni operative volte alle più svariate attività produttive.

*An ultimate product that gives a valuable contribution to the productivity increase by reducing the management of the pieces to be machined, necessary condition to compete in the markets all over the world: we are talking about the Angle Heads, to be considered an integrant part of the machine tools range.*

- **Experience** - O.M.G. engineers its products since the beginning of the '60's. The experience cannot be bought but it is acquired. Since that time the achievement of special products gave us the expertise to develop a range of Angle Heads very broad and performing, suitable to the most demanding customers believing in investments to gain new market shares.
- **Tradition** - The word "quality" is often mentioned, but it does not mean just to use technologically advanced machine tools to get accurate machining. The quality is the result of practical experiences, of mathematical calculations, of won and lost challenges, anyway accepted, which are treasured.
- **Innovation** - The last generation Special Angle Heads offers performances much higher than all standards, and they often affect the production cycles until becoming indispensable when completing production stages. O.M.G. keeps getting beneficial results from his special range which is also reflected into the standard Angle Heads range.
- **Modularity** - Nowadays the productivity flexibility is mandatory, and even more in the investments. Towards this goal the O.M.G. Angle Heads modular system allows cost reductions and to increase profits.
- **Customization** - And if the wide range of standard Angle Heads will not meet your requirements, we are ready to engineer and to manufacture a new Special Angle Head product, always supported by our experience of hundreds of solutions done for many different industrial activities.

# Panoramica prodotti

## Product overview

### TAR

Piccole per piccoli spazi.

*Tiny for narrow spaces.*

Pagina/Page: 4-8

### TA

Lavorazione singola di foratura e fresatura.

*Drilling and milling machining.*

Pagina/Page: 4-16

### TA... D

Input refrigerante attraverso lo stop-block e uscita attraverso il centro utensile.

*Input coolant from stop-block, and output through tool spindle.*

Pagina/Page: 4-36

### TAO

Mandrino offset, lavorazione in spazi ristretti ed ottima performance in fresatura.

*Offset spindle, machining in narrow spaces, and excellent results in milling operations.*

Pagina/Page: 4-46

### TAF

Mandrino fisso, angolo su richiesta del cliente.

*Fixed spindle with custom angle.*

# Sistema modulare per applicazioni flessibili

## *Modular system for flexible application*

1 Testa ad angolo con presa utensile ER standard, oppure vedi tipi Mandrino.  
*Angle Head with standard ER tool connection, or check other spindle types.*

2 Antirotante standard “senza gioco”, oppure su specifico design  
 per la vostra macchina utensile.

*No backlash standard torque arm, or under specific design  
 for your machine tool.*

3 Coni macchina standard o speciali su richiesta.  
*Standard or on-demand machine tapers.*

**Modularità Coni** – Sono disponibili tutti i tipi di coni macchina, da sostituire tramite un esclusivo accoppiamento di precisione che crea un sistema rigido pari ai coni integrali, ma con i pregi dell’intercambiabilità.

**Modularità Antirotanti** – esistono fondamentalmente tre dimensioni unificate di interesse tra il centro cono ed il centro perno antirotante: 65 mm per i cono grandezza 40, 80 mm per i coni grandezza 50 ed in alcuni casi anche 110 mm. Sono disponibili tutte le dimensioni e sostituire il gruppo antirotante è una operazione banale.

**Taper modularity** - All the different machine tapers are available, and can be replaced with an exclusive precision coupling system generating a rigid system equal to integral tapers, but with additional interchangeability quality.

**Torque arm modularity** - Essentially three unified dimensions between taper and torque-arm centers exist: 65 mm for the taper size 40, 80 mm for the taper size 50 and also 110 mm in some cases. All sizes are available and torque-arm replacement is very simple.

# Prese utensili - tipi mandrino

## Clamping systems and spindle types

## Refrigerante utensile Coolant tool

**Il circuito refrigerante è standard** - Tutte le teste sono provviste di canalizzazione interna, che parte dal perno dell'antirottante e termina sull'ugello vicino all'utensile, senza alcun costo aggiuntivo.

**Refrigerante da cono macchina** - La costruzione offset delle Teste ad Angolo serie TAO consente il montaggio di tenute ad alta pressione affidabili nel tempo ed isolate dalle parti vitali della Testa ad Angolo, per un sicuro utilizzo di utensili con passaggio refrigerante interno.

**Coolant system is standard** - All our Angle Heads are supplied with an internal channel system, which starts from the torque-arm pin and ends on the nozzles next to the tool, without additional cost.

**Coolant system from machine taper** - The offset construction of the TAO Angle Head series allows to fit high pressure seals which are time reliable and isolated from the vital parts of the Angle Heads, for a safe usage of tools with internal coolant transit.

STANDARD

TriBlock

QuadBlock

Studiato e realizzato su  
specifiche richieste.  
*Customized design according  
to your application.*

Stop-block  
Perno conico  
Conical pin

**Prestazioni superiori** - L'antirotante standard permette di cambiare la testa in automatico. Il sistema di accoppiamento fra perno conico regolabile assialmente e lo stop-block con sede a "V", permette di annullare la tolleranza tra le parti creando un sistema rigido, senza giochi. Evidenti sono i vantaggi: maggiore durata degli utensili, maggiore durata dei cuscinetti, risparmi in termini di manutenzione con conseguente riduzione dei costi.

**Massima stabilità** - I sistemi antirottanti **TriBlock** e **QuadBlock** di O.M.G. con perni regolabili permettono di contrastare al meglio le spinte radiali e assiali con la possibilità di affrontare in sicurezza lavorazioni di fresatura o finitura fino a ora mai effettuate con le teste ad angolo, destinate inizialmente a diversi piazzamenti pezzo.

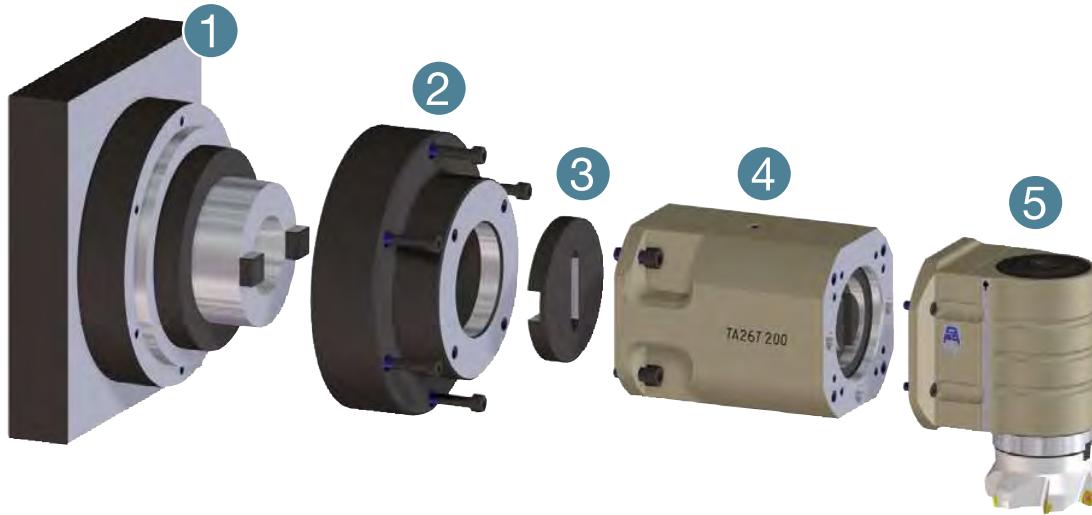

**Higher performances** - The standard torque arm allows an automatic change of the head. The coupling system between the conical pin, which can be axial adjusted, and the "V"-housing of the stop-block, allows to cancel any tolerance between those parts generating a rigid and backlash free system. The advantages are evident: longer life of tools, longer life of bearings, maintenance savings with consequent cost reductions.

**Maximum stability** - The O.M.G. **TriBlock** and **QuadBlock** torque arm systems with adjustable pin allow to oppose both radial and axial thrusts at their best, with the possibility of milling or finishing with total security, which was not possible until nowadays because requiring several changes of placement of the piece to be machined.

# Qualità dei componenti

## *Quality of components*

CORPO/BODY

CUSCINETTI/BEARINGS

INGRANAGGI/GEARS

DESIGN

Corpo testa in acciaio:  
massima rigidità e minima  
dilatazione termica.

Heady body in steel:  
maximum rigidity and mini-  
mum thermal expansion.

Cuscinetti obliqui in classe di  
precisione ABEC7/9.

Angular contact ball bearings  
of precision class ABEC7/9

Ingranaggi Gleason con evol-  
vente rettificato:  
massime performances e  
minori vibrazioni.

Gleason rectified gearings:  
maximum performances and  
minimum vibration.

Design compatto, che in-  
sieme alle specifiche sopra  
descritte, consente: alte per-  
formances, elevate velocità,  
lunga durata degli utensili.

Compact design that, along  
with above mentioned  
described specifications,  
allows: high performances,  
high speeds, long life of tools.

**Materiali** - Tutte le teste ad angolo standard sono in acciaio ricavate dal pieno per fresatura a pareti sottili, minimo ingombro e minor peso. Hanno il corpo trattato con niploy, trattamento anticorrosione, che garantisce alta protezione contro la ruggine, lubrorefrigeranti aggressivi e acidi.

**Componenti** - Tutte le teste montano cuscinetti di precisione, oppure conici nelle versioni per grandi asportazioni. Si utilizzano solo cinematici trattati termicamente e coppie coniche Gleason con dentatura rettificata. Lubrificazione con grasso long-life.

**Materials** - All our standard Angle Heads are made from solid steel for thin wall milling, resulting with the minimum possible size and less weight. Body is niploy treated and anti-corrosion coated giving the guarantee of high protection against rust as well as acid and aggressive lubricant-coolants.

**Components** - All our Angle Heads integrate precision bearings, or tapered roller bearings when models are for big removal machining. We only use thermal treated cinematic components and Gleason bevel gears with rectified teeth. Lubrication is with long-life grease.

## Packaging

Le Teste ad Angolo sono racchiuse in robusta valigetta di materiale termoplastico e corredate di una completa dotazione di accessori:

- Stop-block standard con passaggio refrigerante
- Confezione di chiavi per messa in funzione e manutenzione
- Grasso di mantenimento
- Manuale istruzioni dettagliato per messa in funzione e manutenzione

The Angle Heads are packed in a strong thermoplastic case together with a complete set of accessories:

- Standard stop-block with coolant way
- Set of keys for operation and maintenance
- Grease tube
- Operation and maintenance manual
